Specifications

The Design Series Atrium Door and French Classic units are available in four exterior clad colors and include brass trim multi-point hardware and LoE² high efficient insulated glass.

FRAME

Constructed of low maintenance extruded aluminum exterior, combined with the warmth and beauty of clear wood interior. Exterior colors are available in white, sandstone, earthtone or green.

SILL

Light bronze anodized thermally efficient aluminum sill with drainage design prevents weather and temperature transfer to the interior.

GLAZING

Standard LoE² with Argon gas insulated glass offers energy savings for all climates. Options include tints, removable wood grilles, internal aluminum grilles that match clad exterior and Atrium Classic Lite for the simulated look of true divided lite panes.

LOCKS

Standard three point, multi-point hardware on Atrium Door and five point on French Classic units with solid brass handles. Single-point mortise lock with dead bolt is available in single swing and center hinge units only.

HINGE

Four brass plated hinges are standard on all 6-11 units; five brass plated hinges on 8-0 high units.

SCREENS

Extruded frames on fiberglass mesh in white, earthtone or sandstone and available for center hinge and four panel French Classic only. Not available for single swing French Classic.

Lite Patterns

Snap-in interior wood grilles or Atrium Classic Lite (ACL) for a true divided look, available on all Atrium doors. Ask your sales representative about in stock designs.

1 Lite 10 Lite 15 Lite

All Design Series Doors feature a multi-point locking system for extra security. The system includes double-reinforced shoot bolts top and bottom on both active and inactive panels.

Venting Sidelites

Sidelites available on all Atrium Design Series Doors. Includes multi-point cam lock for added security and weathertightness.
